# DATA INTERPRETATION TOOL: INDIVIDUAL SKILLS REPORT

Use the questions on this Data Interpretation Tool as you examine the Individual Skills Report. This is a valuable tool to use during team meetings to analyze data and identify next steps.

**01.** What do you notice about the data?

**02.** What parts of the report do you find most helpful? Why?

**03.** Which skill area(s) has the learner already mastered?

**04.** In which skill area(s) does this learner need additional support?

*(continued on next page)*

# DATA INTERPRETATION TOOL: INDIVIDUAL SKILLS REPORT

**05.** Do we need to collect additional data to identify instructional needs for this learner? If so, which FastBridge measures and/or diagnostic assessments should be used?

**06.** Are there other students in the classroom or grade level who have similar needs? If so, list these students for possible small-group instruction.

**07.** What are the next steps to support this learner (or this small group of learners) as a result of these data?

**08.** Who do we need to collaborate with to take action towards these next steps?

**09.** Who else needs to be included in communication about these next steps?
