# DATA INTERPRETATION TOOL: PROGRESS MONITORING REPORT

Use the questions on this Data Interpretation Tool as you examine the Progress Monitoring Report. This is a valuable tool to use during team meetings to analyze data and identify next steps.

**01.** What do you notice about the data?

**02.** What parts of the report do you find most helpful? Why?

**03.** Is the student on track to meet the goal?

**04.** Is the student making an acceptable number of errors? What do error patterns suggest about current instruction?

**05.** Is the current instruction or intervention effective? Why or why not?

**06.** Are any instructional changes needed? If yes, what changes will you make?

**07.** What are the next steps to support this learner (or this small group of learners) as a result of these data?

**08.** Who do we need to collaborate with to take action towards these next steps?

**09.** Who else needs to be included in communication about these next steps?
